

This Diwali,
the spirit of sharing
comes in a box straight
from the Nilgiris!

The goodness of small
batch Honey
comes home this Diwali
with tea and
coffee from the Nilgiris
biosphere!

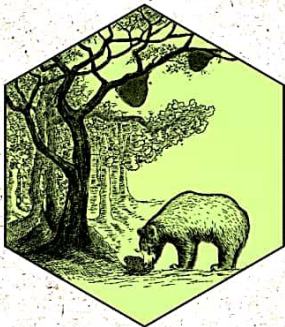

**The
Third
Share**

This is the philosophy behind 'The Third Share' natural produce containing the traditionally gathered honey along with our tea and coffee.

This festive season, welcome home these small batches of natural, lovingly harvested and collected products from the heart of the Gudalur valley, Nilgiris Biosphere Reserve.

The First share of what the forest gives, belongs to its animals.

The Second share belongs to our community who call the forest their home.

The Third share belongs to you, our valued consumer.

just change
Estd.2006

From time immemorial, the Adivasis of Gudalur valley in the heart of Nilgiris have left the honeycomb and some honey for the bears. They keep another share for their families, and bring your share to you. 'The Third Share' is an expression of this philosophy. The driving force behind 'The Third Share' (formerly called First People Enterprise) is 'Just Change', an organisation that empowers Adivasis to become self reliant despite the injustices of a global free market economy. We are happy to bring you some of our products this Deepavali - the traditionally and lovingly gathered 100% wild honey, tea and coffee directly from the pristine Nilgiris.
